Getting to Know Your Kit

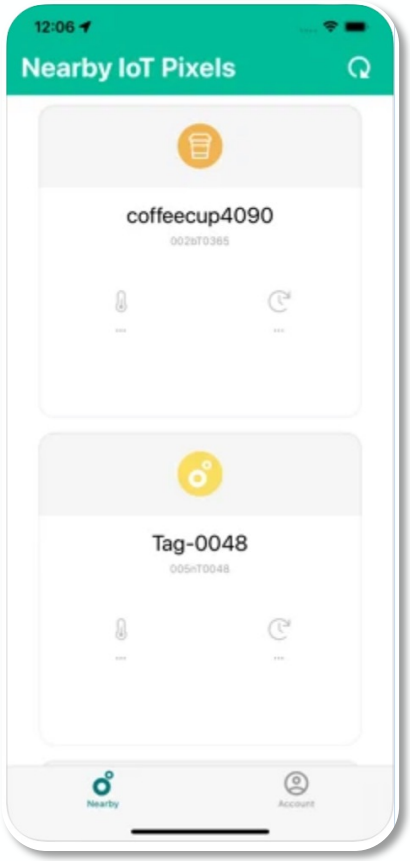
Orientation

- Starter Kit
- How it Works
- What next
    - Universal Automation Platform (Alpha)- a sneak peek
    - Wiliot Cloud

Starter Kit

Welcome to the world of intelligent products.
It starts with a single cup of coffee.

What’s in the box

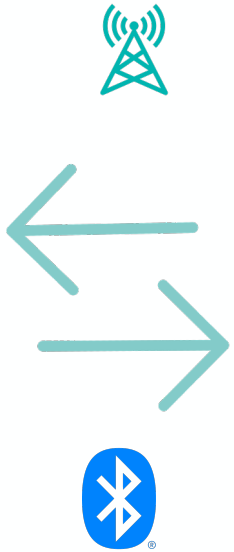


How it works

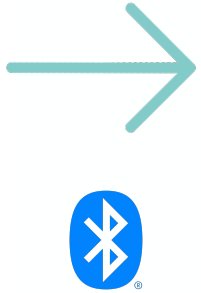
How it Works

3 Tier Architecture

Wiliot Smart Coffee Cup



Works with Wiliot Bridge by Energous



Phone w/
Wiliot App

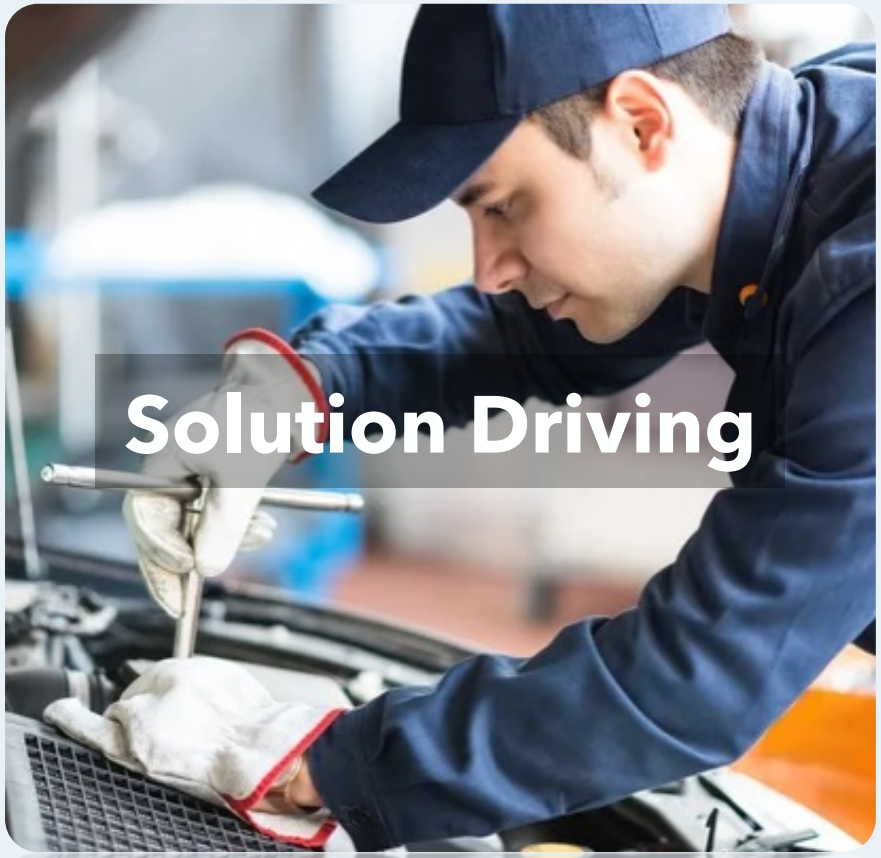
Wiliot Dual-Band IoT Pixel

Front

Back

Universal Automation Platform

vs.



Universal Automation Platform

Steve's Magic Cup

it has a lot to say!

Encrypted raw data

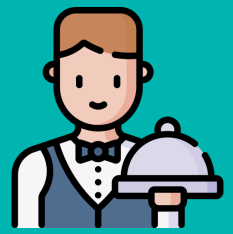
Coffee is hot

Steve

Enjoy your coffee!

Coffee is cold

Steve's Helper



Steve needs your help!

Once a day

Steve's colleagues

*Steve drank **n** cups of coffee, is that too much?*

Universal Automation Platform

wiliot

Join us in the Wiliot management portal:

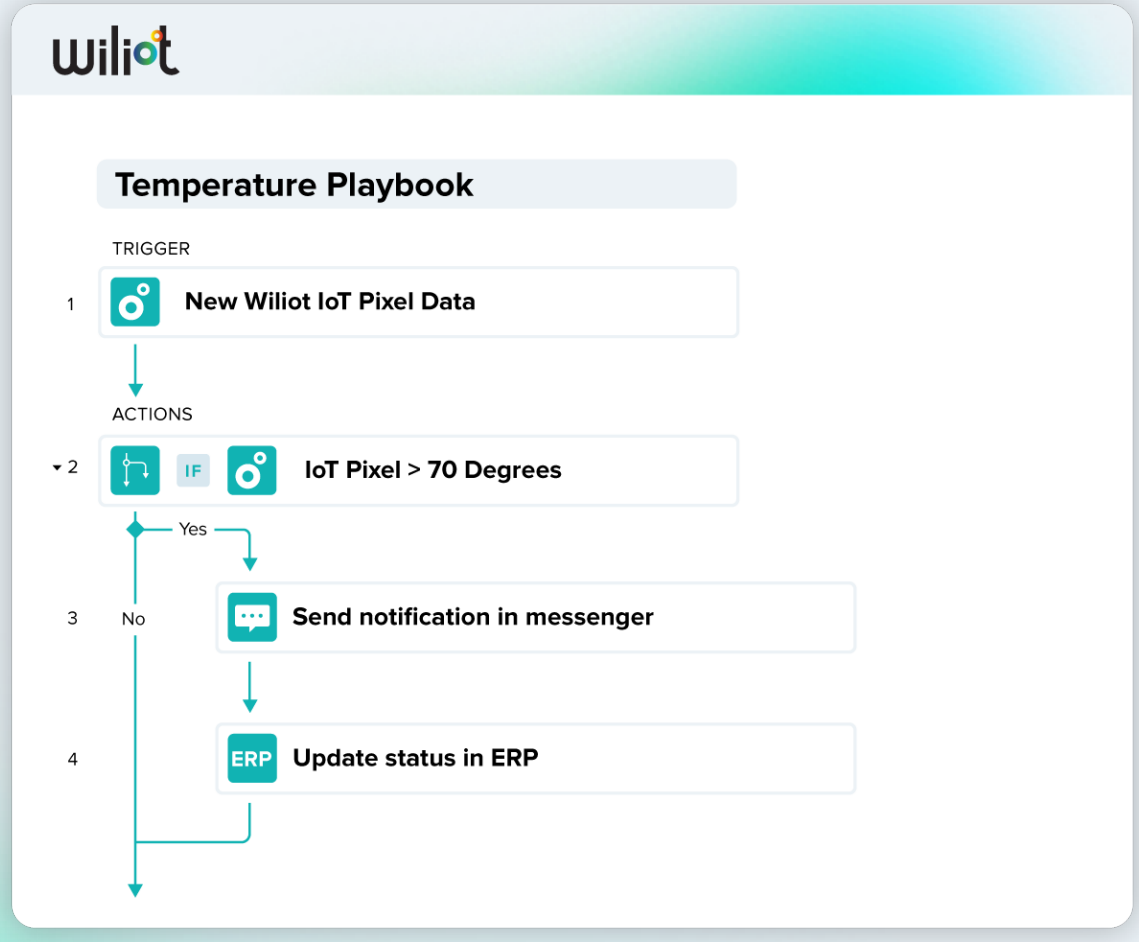
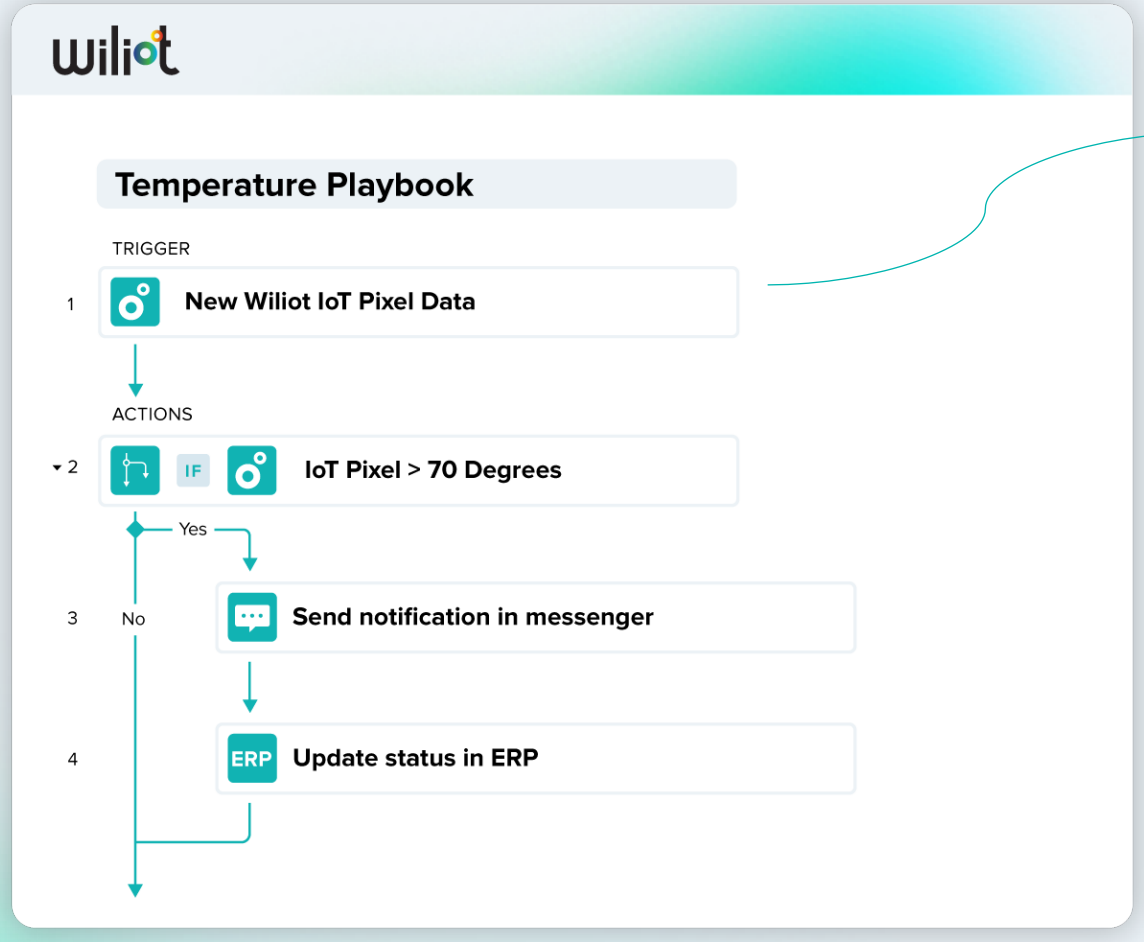
Password: Wil-IoT2!

Universal Automation Platform



Playbook

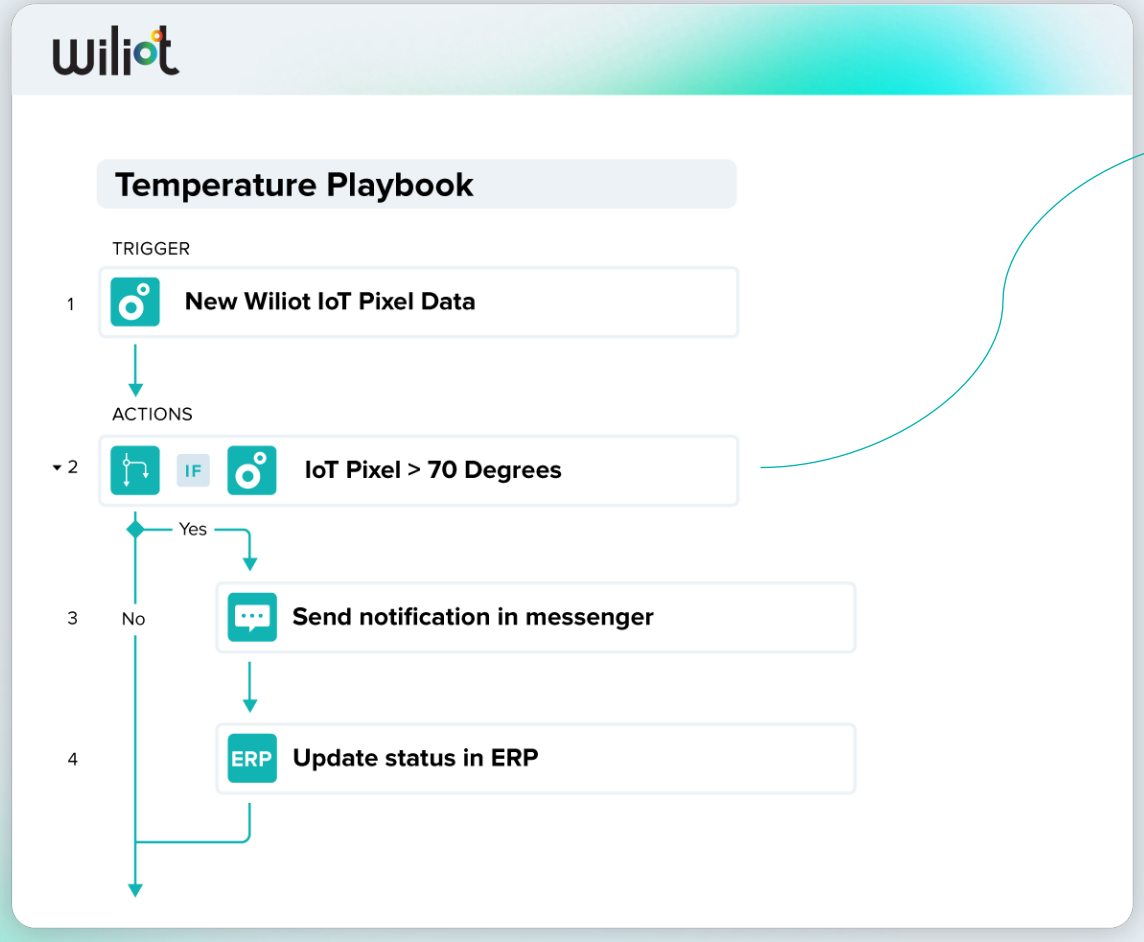
Universal Automation Platform



Triggers

- Runs playbook at a configurable cadence
- Similar to a “cron job”

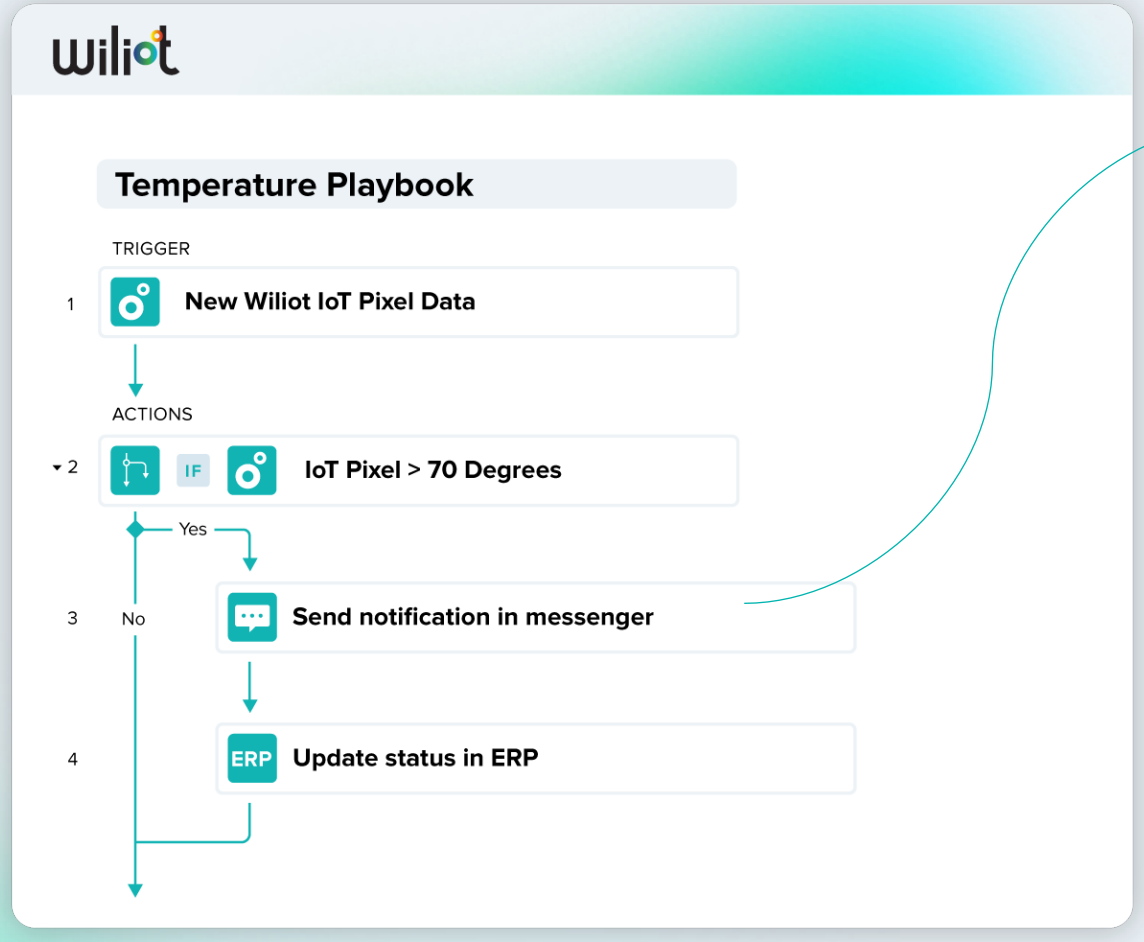
Universal Automation Platform



Filters / Actions

- Runs logic on filtered data from your wiliot pixels
- Easily create if / then / else statements

Universal Automation Platform



Connections

- Connect your favorite enterprise apps
- Create automations based on what's happening to your pixels

Consuming Wiliot Data for Visualization

Setup an endpoint(HTTP/ MQTT)

Register the endpoint in Wiliot Cloud

Wiliot cloud will push data to this endpoint in real time
