

The poster features a dark blue background with a subtle, repeating circuit board pattern. A solid red rectangle is positioned at the top center. The main title 'RFID JOURNAL LIVE!' is centered in a bold, yellow, sans-serif font. 'RFID' is the largest, followed by 'JOURNAL' which is underlined, and 'LIVE!' is also large. Below the title, another solid red rectangle contains the event dates and location in white, sans-serif text. The overall design is modern and tech-oriented.

Expanding RFID Sensor Solutions for Supply Chain Monitoring

Jan Van Niekerk, Vice President of Engineering
Angela Kerr, Vice President of Products

The Challenge

\$2.3 trillion damage annually to shipped goods!!!

Solving the Problem

DETER

The knowledge that cargo is actively being monitored deters bad handling behavior by supply chain participants.

DETECT

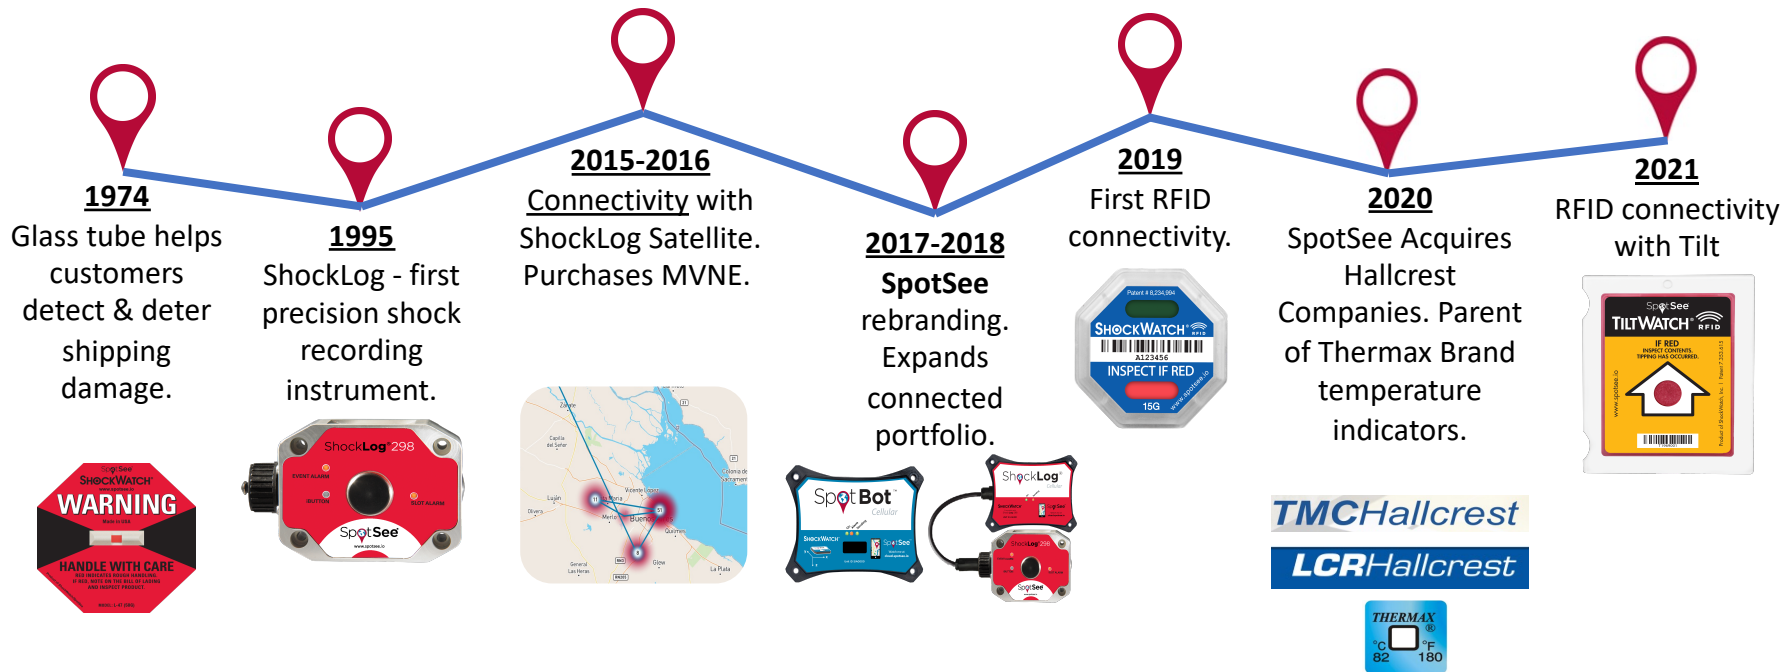

Connected monitoring enables real-time damage detection so costs are minimized, and responsible parties are held accountable.

DIAGNOSE

Data and analytics provided by shipment monitoring enable the diagnosis and elimination of pain points within the supply chain.

40-60% typical reduction in damage!

Meeting The Challenge: SpotSee

Connectivity: The Key to Real-Time Data

Connectivity with
ShockLog Satellite

Adds Cellular, WiFi, Bluetooth

RFID connectivity

SpotSee's ShockWatch Indicator

Adding RFID Connectivity to ShockWatch

Emulating Shock Behavior

ShockWatch RFID Tags Protect Sensitive Semiconductor Equipment and Wafers from Damage in Transit

- Application: Fabrication Equipment and Silicon Wafers
- Challenge: Semiconductor fabrication equipment and the silicon wafers they produce are extremely sensitive to impact and tilt.

ShockWatch RFID Tags Reduce Damage to Data Center Servers & Equipment

- Application: Data Center Servers
- Challenge: With vast numbers of servers, it's important to ensure they arrive from their manufacturers in pristine condition, ready to be installed.

ShockWatch RFID Tags Identify Damaged Garage Doors Before They Are Delivered

- Application: Garage doors
- Challenge: A garage door manufacturer was dealing with costly returns because customers were receiving damaged doors.

SpotSee's TiltWatch Indicator

TiltWatch - Emulating Tilt Behavior
