VIRTUAL EVENTS

Introducing RFID Journal's Virtual Events—Providing Unique and Powerful Benefits to Marketers

What is a virtual event?

Just as a conference is a series of seminars in a single location, virtual events are seminars held over the Internet. The key difference is that a virtual event provides a more robust program with several speakers and sponsors participating in each event.

Why participate in a virtual event?

Our virtual events are turnkey online events. We will harness our broad audience and ability to attract attendees with high-quality content to deliver highly qualified sales leads. After each virtual event, we will provide sponsors with a lead report according to their sponsorship level. This is one of the most effective ways to gain new sales leads and maximize your online marketing efforts.

How does it work?

We will find appropriate end-user speakers, and produce and moderate the event, lending our valuable editorial credibility. We will then promote the event to a vast audience comprising 40,000 registered users and 40,000 monthly website visitors.
